FLAT TRACK
BY LEATHERNECK HARDWARE

BOX TRACK
BY LEATHERNECK HARDWARE

Flat Track Hardware by Leatherneck Hardware styling dates back to the turn of the century when it was used for barn doors, warehouses and in industrial settings. Today the award-winning hardware, with its unique look and versatile finishes, is perfect for many space-saving interior and exterior applications.

Box Track by Leatherneck Hardware is a new addition to our lineup. We specialize in custom projects that are as unique as our customers. Whether new construction, repurpose, remodel, repair or retrofit, we have over 40 years of creative solutions for any door hardware project.

Our sliding hardware has been featured everywhere from HGTV to The Ellen Show, but what means the most to us is hearing that our hardware was even better than our customers expected. They tell us the difference is in our quality – materials, craftsmanship and experienced service.

“What I like is the form follows the function. The beauty lies in the raw simplicity.”

***- Cavin Costello,
Chief Designer, The Ranch Mine***

Custom Solutions

We excel at designing customized solutions in partnership with our customers. No matter the design idea or challenge, our team of innovators can develop a sliding hardware answer that makes every space unique and functional.

Design

The hardware is available in clean, simple styling or can be reimagined to fit any application perfectly.

Finishes

The hardware is available in many standard finishes. Don't see what you want? Our team continues to develop show-stopping finishes in every painted color on the spectrum, a variety of textures and our new graphics applications.

Applications

Custom track lengths and unique design ideas help our customers save space in the most unconventional places.

STANDARD Flat Track Hanger Styles

All standard and designer series hanger styles available with steel or quiet wheel. Steel wheels are precisely machined and feature sealed ball bearings that are lifetime lubricated. Wheels are available in all finishes. 3" Quiet Wheel made from a durable polymer material.

Finishes

Powder Coat

More durable than traditional paint. We bead blast the steel, apply the powder coat, and use just the right amount of heat in a custom-enclosed booth to deliver a finish that withstands the toughest environments. Full spectrum of color options.

Graphics Series

In addition to our standard finishes, we offer a unique line of Graphics Finish options. The Delrin hanger wheels, hanger pin, track mounting screws, anti-jumps and hanger fasteners are in black.

Slide Lock (0121-0087)

Available in Powder Coat Black and Brushed Nickel.

Privi-Loc (0119-7019)

Sliding door locking system with safety opening feature. Jamb mounted. All finishes available except MP-109 and Weathered Rust.

Strap Handle (0120-0076)

Available in all finishes except Stainless and Weathered Rust.

Track Mounting Screws for #142 Track
(0316-0046)

One per spacer. 3 1/2", 4 1/2", and 6" lengths.
Available in Black Oxide, Zinc Oxide and Stainless.

Door Stop with Cushion for #142 Track
(0117-0041)

Fixed on the end hole. Track mounted, sturdy stop with cushion to quiet the close. Available in all finishes.

Reversible Adjustable Stop
for #142 Track
(0120-0029)

Adjusts for up to one full inch of movement and can be rotated for more range. Available in all finishes.

Slide Stop
(0120-0079)

Easy-to-use stop, designed to guarantee your door stops exactly where you need it to. Available in all finishes.

Spacer for #142 Track
(0115-0020)

Flange against wall and behind track. Available in different sizes and in colors similar to standard finishes.

Splice Plate for #142 Track
(0115-0021)

Bracket used to hold two ends of track together for precise alignment. Available in all finishes.

By-Pass Bracket with Hardware
(0120-0026)

Hardware for doors that pass in front of each other. Works for doors up to 1 3/4" thick. One bracket per track mounting hole. Available in all finishes.

Anti-Jump Block for #142 Track
(0115-0033)

Fixed on top of door to keep door on track. Black only.

Bottom (FIN) Guide
(0119-0082)

Bottom floor guide to secure door. Floor mounted. Black only.

Cradle Guide
(0120-0096)

Designed to remove the need to mortise cut along the bottom of the door. Cradles the bottom of the door for vertical wall alignment. Black only.

Adjustable Wall Mount Guide
(0121-0088)

Bottom bracket that attaches to the wall instead of the floor. Black only.

142 Flat Track Retail Kits
